if you enjoy...

Chemistry

...you could be a

Chemical Engineer

Work on the design and development of a range of industrial processes that turn raw materials into products for industries such as energy, plastics, food and drink, oil and gas, pharmaceuticals

- Apprenticeship
- University
- Work based training

Chemical Engineer

Key Facts

Starter salary
£30,000

Experienced Salary
£65,000

Working Hours
37-41 hours a week
